EXPERIENCE

NULLCLASS TECHNOLOGIES
Data Analyst Intern ———————————————————— **Jan 2025 – june 2025**

I worked with raw Twitter data, performing cleaning and preprocessing for accurate analysis. I visualized key insights using Power BI to better understand patterns and trends. I also created an interactive dashboard in Power BI for effective data representation. This experience strengthened my skills in data analysis, visualization, and business intelligence tools.

EDUCATION

INTEGRAL UNIVERSITY
BCA
2022 – 2025

AVADH COLLEGIATE
Intermediate
2021 – 2022

AVADH COLLEGIATE
High School
2019 – 2020

SKILLS

TECHNICAL

- Python
- SQL
- Data Analysis
- HTML
- CSS

TOOLS

- PowerBI
- MS Excel
- MySQL
- Wordpress

PROFESSIONAL SKILLS

- Communication
- Project Management
- Critical Thinking

- Visualisation

PROJECTS

CHATBOT ———————————— **JUNE –JULY (2025)**

Repository Link : Python_Based_Chatbot

Python-based chatbot that can interact with users in real time, providing meaningful responses.
It also includes features like fetching weather reports and giving word definitions for a more engaging experience.
Integrates external APIs for live weather and dictionary lookups.

CAFE MANAGEMENT SYSTEM —————— **APRIL– MAY(2025)**

Repository Link : Cafe_Management_System

A Python-based Cafe Management System that allow customers to place orders from multiple categories, calculates totals, and generates a detailed bill.
It simplifies menu handling, order tracking, and billing in an interactive way.

AMAZON CLONE ————————— **OCT– NOV(2023)**

Repository Link : Amazon_clone

I created an Amazon Clone that replicates the core features of the Amazon website, including product listings, search, and cart functionality.
It showcases my skills in front-end development using HTML, CSS, and JavaScript.
